Re: Bayer Studies

Dear Patrick:

I worked with Jennifer Viguera on two Bayer studies in the past few years. The first was an osteoarthritis study and the second was a maximum use and safety study. In both studies, Jennifer showed initiative and dedication. She responded quickly to all of Bayer's requests and proved to be reliable throughout both studies. Jennifer was essential to both studies, ensuring that subjects were properly enrolled and followed throughout the studies. Enrollment was completed quickly and Jennifer enrolled more than what was needed for each site for both of the studies, proving her ability to work under pressure.

I enjoyed working with Jennifer in the past, and I hope that we can continue the relationship in the future.

Warm Regards,

A handwritten signature in black ink, appearing to read "Jennifer Burke".
