

Patrick McLaughlin, Executive Director
Anaheim Clinical Trials
1085 North Harbor Blvd
Anaheim, CA 92801

July 30, 2012

Dear Mr. McLaughlin,

On behalf of Braintree Laboratories, we would like to formally recognize and thank you for the hard work and outstanding enrollment efforts that you and your research staff have demonstrated through the years.

We greatly appreciate the professionalism, dedication and persistence that your dependable staff has displayed in our clinical studies. In particular, we would like to thank Lupe Castro for her valuable work and contributions as coordinator in our more recent studies. Also worthy of recognition is the quality work and organizational skills shown by your regulatory specialist, Gaby Huizar. These members have all been great assets to your team and we look forward to working with them, as well as the rest of your research staff, on future projects.

Sincerely,

Diane Ahearn, CCRA II
Project Manager, Clinical Research
