Re: Protocol # AMP001, site 138/Winkle

Dear Patrick,

On behalf of Health Decisions, I would like to express our appreciation for the work your site's study team has done on the Evofem study. I would like to recognize the efforts of Ana Perez.

Ana is great at her job as a study coordinator. During my monitoring visits to your site and/or working remotely, Ana is super responsive, any questions were addressed promptly and queries and/or issues have been addressed in a timely manner.

Ms. Perez's hard work, attention to detail and dedication to the study has contributed to its' success at your site. She is a valuable asset to our study and I am very appreciative all of her time and the effort put into our trial.

Best Regards,

Dayna Roberson  
Clinical Research Associate II

cc: Ana Perez
