To Whom it May Concern,

It was a pleasure to work with Jennifer Viguera, RN, CRC, with Anaheim Clinical Trials, on the Mallinckrodt Ruby Study.

My initial meeting with her was warm, friendly and professional, which she carried for the duration of this trial.

She was prompt with responding to remote request made from the sponsor, and with completion of all tasks assigned for this study. Ms. Viguera was thorough with documenting events and subject feedback for all communications made and did very with managing study visit schedule.

During monitoring visits, she went above and beyond to ensure that the CRA requests were met. Each monitoring visit completed by me were completed with no open issues left at the close of visit.

In closing, I would like to state that Ms. Viguera was stellar on all aspects of this study and is a definite asset to this clinical research site.

It would be my pleasure to work with Ms. Viguera on future studies.

A handwritten signature in cursive script that reads 'Regina Hampton'.
