

31Dec13

Patrick McLaughlin
Executive Director
Advanced Clinical Research Institute
1211 West La Palma Avenue
Suite 602
Anaheim, CA 92801

Dear Patrick,

This letter is to express my appreciation of Pramod Vora and Sharda Vora for their outstanding efforts on the currently active Phase II RPC01-202 UC study.

Pramod and Sharda continuously goes above and beyond to ensure all study timelines and goals are met, while always maintaining a positive and professional attitude. They both have a very good understanding of the protocol. Pramod and Sharda have done a very good job identifying the appropriate patients for this study. And, they ensure that the patients' data is entered into EDC promptly with very few queries, if any at all, and are very well prepared for monitoring visits.

It is a pleasure working with Pramod and Sharda. They are a true asset to your company.

Sincerely,
Martine
