

01 August 2012

Patrick McLaughlin  
Executive Director  
Anaheim Clinical trials  
1085 N. Harbor Blvd.  
Anaheim, CA. 92801

Dear Mr. McLaughlin:

I have been asked to write a letter of commendation for Dr. Anna Parker in her role as coordinator for the AstraZeneca study D1690C00010.

Anna was the coordinator for this as well as several of my other studies ongoing at the same time.

Anna is thorough, knowledgeable and prompt to respond to sponsor and monitor queries and needs. I particularly appreciate her knowledge of the disease under study, and her knowledge of the protocol.

She is prompt to enter data and address queries within the established timelines set forth by the study team, especially during final data review when timelines for response are shortened and demands by data management are sent out seemingly on an hourly basis.

Anna is always professional, courteous, helpful and reliable in all her interactions. I call myself indeed fortunate to have had the pleasure of working on this study with Anna as my coordinator.

Sincerely,

A handwritten signature in black ink, appearing to read 'Anita H. Beck', is written over a horizontal line.
