Dear Sir:

It was my pleasure, and good luck to have worked with Gaby Huizar on two studies in the past. In writing this testimonial I can only speak of Gaby in superlatives as it pertains to her performance. Gaby was the Regulatory Coordinator for these studies. The Regulatory Binder, a daunting project for me, was beautifully kept, always current and available. Her conduct and demeanor were always pleasant, cooperative and professional. My only wish is that there would be more people of her caliber in this industry. I extend my congratulations to you in that you have Gaby as an employee, and I again extend my grateful thanks to Gaby for her assistance.

Sincerely,

**Anita H. Beck**
