**A Safety, Tolerance and Efficacy Evaluation of 3 Different Bowel Cleansing Treatments in Adult Subjects, Including the Elderly and Subjects with Hepatic or Renal Insufficiency**

Dear Dr. DeMicco,

I would like to thank Adam Lopez for his continued hard work and impressive attention to detail while coordinating the above mentioned study at your site. Adam was a pleasure to work with and has done an exemplary job managing the high number of enrolled subjects at your site on this challenging study.

During the multi-day monitoring visits I completed at your site, Adam was always available to answer questions and minimal corrections or clarifications were required in the charts reviewed. Adam is an asset to your company and I look forward to working with your site in the future.

Sincerely,

A handwritten signature in black ink that reads 'Sara Fitzpatrick'. The signature is written in a cursive, flowing style.

Sara Fitzpatrick  
Senior Clinical Research Associate
