Patrick McLaughlin
Executive Director at Anaheim Clinical Trials
1085 North Harbor Boulevard
Anaheim, CA 92801

Dear Patrick,

I wanted to bring to your attention the outstanding work that Angela Aviles has performed thus far on the TAK-390MR_206/207 pediatric protocols. These studies are in currently in the start-up phase and with 2 studies being conducted simultaneously, a huge amount of work has been needed to be able to start screening subjects.

Angela has put forth much hard work and effort and has worked well with Quintiles, Takeda's strategic partner, to ensure all start-up activities have been completed in a very timely manner. Based on Angela's efforts, Anaheim Clinical Trials is the first and only site so far to have screened and enrolled subjects into the studies and has single-handedly helped us to meet 3 of Takeda's milestone goals for the studies.

We really appreciate all the work that has contributed to a successful start to these studies.

Kind Regards,

A handwritten signature in black ink that reads "Karen Klehm".
