RE: Santarus Contribute Study participation

Dear Patrick:

Oh behalf of Trio, we would like to express our appreciation for the dedication and diligence Sherry Raviz has demonstrated in the implementation of the Contribute study sponsored by Santarus. Trio has a great appreciation for the hard work and coordination required to run a clinical program, and Sherry's ongoing effort and responsiveness is the reason your site is currently the second highest enrolling site in North America.

Your site's success with this study serves to solidify the professional working relationship between Drs. Riff and DeMicco and Santarus. Sherry's work is a distinct component of this success. Please feel free to contact me with any questions you might have. Thank you again for your support of this program.

Kind regards,
